### SPECIFICATION

#### Main features

|                                  |                   |
|----------------------------------|-------------------|
| Room sizes                       | <b>30 m2</b>      |
| Performance                      | <b>220 m3 / h</b> |
| Ionization function              | <b>Yes</b>        |
| Sterilization function           | <b>Yes</b>        |
| Operating mode                   | <b>3 steps</b>    |
| Timer                            | <b>Yes</b>        |
| Humidification function          | <b>No</b>         |
| Power                            | <b>44W</b>        |
| Parental lock                    | <b>No</b>         |
| Remote control                   | <b>No</b>         |
| Night mode                       | <b>No</b>         |
| Noise level                      | <b>62db</b>       |
| Min. Noise level                 | <b>40db</b>       |
| Internal temperature measurement | <b>No</b>         |
| Humidity sensor                  | <b>No</b>         |

#### Other

|               |                      |
|---------------|----------------------|
| EAN code      | <b>5907265012272</b> |
| Product model | <b>AP8600</b>        |

#### Type of filtration

|                         |                                  |
|-------------------------|----------------------------------|
| Purification technology | <b>multi-stage with HEPA</b>     |
| Cleaning efficiency     | <b>99.9%</b>                     |
| Air filtering           | <b>3 stages</b>                  |
| Filters                 | <b>preliminary, carbon, HEPA</b> |
| Air pollution sensor    | <b>Yes</b>                       |
| UV lamp                 | <b>Yes</b>                       |
| Water level indicator   | <b>No</b>                        |
| Filter wear indicator   | <b>Yes</b>                       |
| WiFi control            | <b>No</b>                        |

### DESCRIPTION

# AP8600 AIR PURIFIER KKSMX-005A

What color is the air in your home?

# AP8600 AIR PURIFIER KKSMX-005A

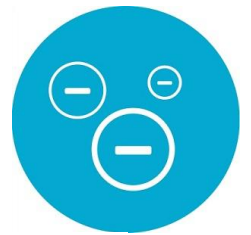

Outdoor air is deteriorating and it can easily enter your home through open doors and windows.

Our purifiers signals the quality of the air in your home.

- Blue - good
- Yellow - medium
- Red – bad

## Ionizer with a capacity of 10,000,000 ions / cm<sup>3</sup>

**QUATRE Air technology** brings relief to allergy sufferers around the world. It consists in generating a balanced amount of positive and negative ions that destroy viruses, allergens and fungal spores. The effectiveness of **QUATRE Air** reaches 99.91%.

In addition, thanks to ionization, the air is as fresh as after a storm.

## QUATRE FILTER is an innovative air purification system.

- **Pre-filter:** traps coarse dirt such as hair, dust, crumbs etc.
- **The HEPA filter** stops at least **99.97%** of mechanical impurities, including **PM 2.5**, fungal spores, bacteria and most viruses
- **Carbon filter:** removes volatile compounds from the air, incl. benzene, formaldehyde, xylene, benzo (a) pyrene, and **odors**
- **The UV- C lamp** kills bacteria, viruses and dust mites.

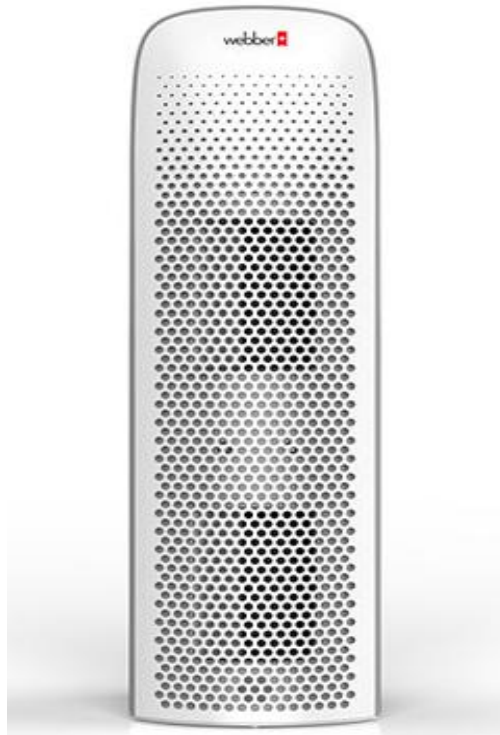

## TIMER for increased efficiency

This function makes it possible to automatically turn off the device in the range chosen by you.

# AP8600 AIR PURIFIER KKSMX-005A

In practice, it works like this: if you want the purifier to finish its work after 4 hours, I start the timer function and enjoy the guarantee that it will happen

## Quiet and energy-saving

The purifier has been designed in such a way as to reduce noise as much as possible. The sound produced during mode 1 is almost imperceptible so that our rest or sleep will not be disturbed.

### TECHNOLOGIES

- **Pre-filter:** stops larger contaminants such as: hair, dust, crumbs etc;
- **HEPA filter:** retains most of the mechanical impurities not smaller than 0.3  $\mu\text{m}$ , as well as the cells of fungi, protozoa and bacteria, and most viruses;
- **Carbon filter:** reduces unpleasant odors in the home;
- **Uv-c lamp:** eliminates bacteria, mite viruses and fungi;
