

# UV-C STERILON 36 W

- v Type of light: UV-C ultraviolet
- v Body colour: white
- v Disinfection efficiency: about 15 m<sup>2</sup>
- v UV-C wave length: 253.7 nm
- v Lifespan of light source: 9000 h
- v Supply voltage: 220-240 V
- v Ingress protection IP 20
- v Power supply cable 5 m
- v Ergonomic movable handle
- v Available option: ON-OFF switch
- v Universal mounting strap in set
- v Adapted for mounting on a universal tripod
- v Dimensions (A/B/C) [mm]: 215/320/95

## Standard accessory

### Universal strap

Mounting without tools

Available in set with lamp

UV-C Sterilon lamps emitting ultraviolet light are one of the most effective devices capable of removing viruses, bacteria, fungi from the surface or destroying the DNA or RNA of any exposed microorganisms. It is enough to direct the UV lamp directly onto the surface for a specified time to effectively kill microorganisms. They are so powerful that they may produce harmful effects on human skin or eyes. Therefore, basic safety precautions should be observed when using UVC lamps for disinfection, i.e. you should not stay within the range of the light beam.

## Additional accessory

### Universal tripod

Screw mounting

index: 000720

Lamps with power 36 W will disinfect a space of about 15 m<sup>2</sup>. Recommended for use in healthcare facilities, grocery stores, public and private means of transport, at petrol stations, in courier companies, public administration and educational establishments and at private homes and cars. Depending on the distance from the light source, temperature and humidity, we take 15 minutes as an approximate disinfection time.

## Available lamp models:

Power [W]	Lifespan of UV-C source [h]	Plug	Cable length	Protection class	Supply voltage	Weight	Index
36	9000	UNI-SCHUKO	5m	II	220-240 V	2,2	243943
